LinkedIn: linkedin.com/in/karthick-ravi-81533b26b | GitHub: github.com/kaRa4065

Portfolio: karthickbio.vercel.app

Technical Skills

Frontend: React.js, Next.js, TypeScript, Tailwind CSS, Shadcn/UI

Backend: Python, FastAPI

Databases: MongoDB, PostgreSQL

Other Skills: Git, Stripe, Google Authentication, Postman, SQLAlchemy, Alembic

Professional Experience

Application Developer | Radiantze - Apr 2025 - Present

- Developed and maintained scalable frontend architecture for production-level applications using Next.js and TypeScript
- Integrated Google authentication and Stripe payment gateway for secure user onboarding and subscription workflows
- Built reusable UI components and optimized application responsiveness across desktop and mobile devices
- Collaborated with backend and product teams to deliver end-to-end features in agile development cycles

Application Developer | Quadkast Technologies - Mar 2023 - Feb 2025

- Developed responsive web applications using React.js, Next.js, React Router, and TypeScript
- Redesigned and enhanced admin dashboard interfaces using Ant Design and Tailwind CSS
- Implemented role-based access control and permission-driven UI rendering for secure user experiences

Projects

SmartSeekers AI (Radiantze)- Tech Stack: Next.js, TypeScript, Zustand, TanStack Query

- Developed the complete admin panel architecture and scalable frontend workflows for an AI-powered interview platform using Next.js and TypeScript
- Implemented live interview monitoring features including camera pre-checks, face detection, malpractice handling flows, AI-based interview character interactions and SEO optimization for improved search visibility
- Built reusable frontend modules, integrated REST APIs, and collaborated with cross-functional teams to deliver production-ready interview management features

ParknStay — Rental Management (Quadkast)-Tech Stack: React.js, Ant Design

- Developed scalable and reusable frontend modules using React.js and Ant Design for a production-level rental management platform.
- Implemented complex business logic, API integrations, and dynamic data-driven workflows for admin and user management features

Education

Bachelor of Engineering in Mechanical 2015- 2019

Loyola Institute of Technology
